SKF VULCAN^{STP}

STAINLESS STEEL
MODULAR
PRE-FABRICATED
NON-CORROSIVE
LOW MAINTENANCE

AN EFFICIENT SOLUTION FOR WASTE WATER TREATMENT

The custom-made SKF Vulcan STP is a boon to waste water treatment systems. The operations of the plant consist of collection, treatment and disposal. The idea is to produce an environmentally safe fluid waste stream and solid waste that may be disposed of or reused, usually as farm fertilizer.

The state-of-the-art SKF Vulcan STP is exclusively designed for hotels, food processing industries, hostels, hospitals, apartments, workshops and in fact, any waste water discharging establishment.
